

Feed it right

Module 08 · Documents, Data & Research · Chapter 01

What you will learn

- ☐ The three doors a document takes into a model, and when each wins
- ☐ NotebookLM: the grounded reading assistant
- ☐ Context hygiene for big piles

Your exercise

TRY IT YOURSELF · ABOUT 10 MINUTES

Take any real PDF (syllabus, circular, chapter). Run identical questions through all three doors, paste in Kimi, upload to Claude, load in NotebookLM: "What are the three most exam-relevant points?" Compare grounding: which cites pages? Which invents?

My notes

KEY TAKEAWAYS

- Three doors: paste (fast), upload (fidelity), NotebookLM (grounded multi-source).
- NotebookLM's citations-only-from-sources design minimises hallucination.
- Hygiene: split by purpose, direct attention, name files, re-anchor long chats.

Educational content only. AI tools change fast: menus, models and prices may differ from what you read here. Verify anything important before relying on it.
